

IGOR DEORSI

Software | Product Developer

✉ deorsi@protonmail.com

🌐 deorsi.com

📍 Vitória - ES

SUMMARY

Software Developer focused on building products. I have a strong thirst for knowledge, high planning skills and organizational capacity to maximize performance. Professional loyalty and commitment, highly collaborative in team. With the DevSecOps mindset I developed, I'm positive that I will help you and your team to improve the performance of your apps.

WORK EXPERIENCE

Software Developer | Product Consultant

[Freelancer.com](#)

📅 2018 - Ongoing 📍 Remote, Around the World

Freelance website.

- Create fast and secure websites and applications javascript (React + Redux, Express & Node and database MySQL & PostgreSQL);
- Code refactoring to improve website & apps performance;
- Maintaining service for Legacy Codes;
- Building and reviewing startup products

Product Owner & Manager

[PlataformaVerde™](#)

📅 04/2017 - 05/2018 📍 São Paulo

PlataformaVerde™ is Blockchain as a Service (BaaS) solid waste management software with the capacity to register and control generators, transporters and receivers of urban and industrial solid waste.

- In one year, we went from 4 to 9 products, revenues from 10,000 to 100,000, serving the public and private sector, we were starting to expand abroad, winning startup awards and participating in investment rounds;
- I was leading the project, development and design team, building products from the ground up (from identifying the needs of clients, wireframing the prototype until the deploy in production). Completely focused on working to improve and develop the business products to maximize the user experience;
- I helped build part of the team by searching, interviewing and hiring the best talent for the company;
- Develop specific products and customized solutions to Renault, LATAM, Riachuelo, Estre Ambiental and +1000 others.

PROJECTS

CTR-E

📅 2018 📍 São Paulo

I lead the team that built the app from conception to production.

- With that app the biggest city in Brazil know how the waste is collected, transported and ultimately destined;
- The product register, monitor and track more than 300k private entities (from generators, transporters, cooperatives and final destinations) of the urban cleaning system.

ACHIEVEMENTS

10k to 100k

In one year, I manage a team that went from 4 to 9 products, improving the revenues from 10.000 to 100.000.

Startup Improvement

Helped the company win startup awards and participating in investment rounds.

STRENGTHS

Problem Solving

In every task or job I had in life solving problems is what motivates me the most. To be able to seek challenges and find solutions to problems is what drives me in every position I've had. I've never drop a task without truly understand it or solving it.

Learn and Be Curious

Never done learning and always seeking to improve myself. Curious about new possibilities and taking action to explore them.
